

Smart Investing Access Multi-Million-Dollar FDIC Insurance

Through the CDARS® service, we can provide you with easy access to multi-million-dollar FDIC protection on your CD investments.

With CDARS, you get:

One Bank

Access multi-million-dollar FDIC insurance coverage by working directly with just us – the bank you know and trust.

One Rate

Earn one rate for each CD maturity and enjoy the option of reinvesting funds through a simple process.

One Statement

Receive one easy-to-read statement from our bank summarizing all of your CD holdings.

How does CDARS work?

We are part of a special network. When you place a large amount with us, we place your funds into CDs issued by other banks in the CDARS Network – in increments of less than the standard FDIC insurance maximum – so that both principal and interest are eligible for FDIC protection. As a result, you can receive coverage from many banks while working directly with just one.

What else should I know?

CDARS can significantly reduce your administrative burdens, especially during tax and financial reporting seasons; there's no need to manually consolidate statements or interest disbursements or to calculate blended rates. Additionally, with CDARS, you can reduce collateralization requirements (like monitoring changing collateral values on a recurring basis), and forego opening accounts at different banks in different insurable capacities. All of this can save you time and money.

As always, your confidential information remains protected.
